

# **Partners are sought for the projects;**

## **Project-1: Wave Operated Artificial Gravity (WOAP)**

### **1. Project Scope:**

**Artificial Gravity is the long term expectation of the World with immense economic demand in Space Engineering and various other Production fields.**

### **2. Partner Involvement:**

**1-Financing for the project experimentation aspects**

**2-Financing for the prototype/miniature model and application for the international patent rights**

**3-Financing for marketing aspects**

### **3. Partner Benefits:**

**75% Royalty as the nominated Patent Agent with financial and marketing authority**

### **4. Prerequisites for the MOU:**

**1- Signing for an International Legal Assurance upon nonviolence purpose of uses of the invention.**

**2- Inventor shall retain the main inventor-ship of the invention.**

**3- Inventor shall retain royalty free non exportable application in Sri Lanka.**

**(05-11-2019)**

## **Project-2: Controlled Tornado Generator (CTG)**

### **1) Project Scope:**

- a. TORNADOS are naturally born to release up excess Heat at the lower atmospheric level aggravated due to the Global Warming. TORNADOS could not be born if excess Heat is released up by manmade controlled Tornado Generators.
- b. It is also going to be a promising measure of generating Electricity by use of CTGs.

### **2) Partner Involvement:**

- a. 1-Financing for the project experimentation aspects
- b. 2-Financing for the prototype/miniature model and application for the international patent rights
- c. 3-Financing for marketing aspects

### **3) Partner Benefits:**

- a. 80% Royalty as the nominated Patent Agent with financial and marketing authority

### **4) Prerequisites for the MOU:**

- 1- Signing for an International Legal Assurance upon nonviolence purpose of uses of the invention.
- 2- Inventor shall retain the main inventor-ship of the invention.
- 3- Inventor shall retain royalty free non exportable application in Sri Lanka.
